® Repeater; (s) simplex; (lsb) lower sideband ssb; (qrm) other user transmission noises

Not associated with the interior WBTC AR Group Emcomm, but important **State Emcomm Contacts.**

Start on 147,360 repeater, if down, go to 2nd choice, after that use the alternative frequencies.

VHF ssb frequency is for members out-of-tri-county area, or alternative for tri-county.

The daily Bee-Hive Utah Net normally is an out-of-State traffic handling net and is served by member operators.

Packet frequency is for passing written traffic only.
